2019 Live Release Program Popularity

Trends and Potential Growth

The statistics from 2019 are not just the result of a lucky year. This shelter has been working towards this mission for quite some time.

Intakes per Year Since 2015

In 2019, the number of animals taken into the shelter was 30% less than the number that arrived in 2015. This is an indication that their overpopulation reduction measures like low-cost spay/neuter and humane education programs are making an impact on the number of animals in the community that need help.

Looking at the live release and euthanasia rates over the last five years, we can see that live release has steadily increased while animals euthanized has decreased by an even sharper rate.

Change in Outcomes from 2015 to 2019

Despite the reduction in animals coming
